Community Pool VSC Reward

Calculation example

Total = Hub A + Hub B = 320,000
Delta = Abs |HubA - HubB| = 120,000
Payable = Total - Delta = 200,000

Your Reward is

10% x Payable x Share Value*

❖ Ethical Positioning

It is forbidden to attempt to 'game' the system to generate more rewards. Any Influencer attempting to do so may, at the Company's sole discretion, have their account terminated. The Company reserves the right to deduct this amount from a Influencer's rewards or to take action to seek monetary damages up to two times the fraudulent reward paid plus any legal costs.

❖ Hub Console

A Hub Console is a digital space in the Vyvo SocialFi App that contains a user's connections and the HV. There are two types of the Hub Console, Free and Pro.

❖ Hub Volume

All purchases made within your Hubs during an epoch generate Hub volume (HV).

❖ Minimum Payable Hub Volume

For the Community Pool VSC Reward, the payable amount must exceed 100 VSC. If it does not, the volumes will be carried over and calculated in the next epoch.

❖ Personal Cap

The maximum USDV reward that an Influencer can earn as Community Pool USDV Reward is 250,000 USDV per Epoch.

❖ Reward Flushes

If an Influencer does not renew their Hub Console Pro within the 30-day grace period following its expiration, they will lose Active status. As a result, all Rewards and volumes accumulated during the Epoch will be not counted.

❖ Referrer

A referrer is an Influencer who owns a Hub Console and actively participates in the Vyvo SocialFi Rewards Program.

❖ Rewards Calculation

Some rewards are computed instantly, while others are calculated on a daily basis. Additionally, periodic (usually seven days) rewards are calculated the day following the Epoch's closure. The results of these calculations will be finalized and accessible in your app.

❖ Total Rewards Cap

The maximum rewards amount in a single Epoch is 35% of the total sales generated inside the Vyvo SocialFi Rewards Program for the same Epoch.

Any amount in excess will be deducted proportionately between all Influencers.
